To demonstrate working of LED fading in and out $% \left\{ \mathbf{r}^{\prime}\right\} =\mathbf{r}^{\prime}$

Aim:

To fade a bulb on and off using an Arduino Uno board.

Hardware Required:

- · Arduino Uno Board
- LED bulb
- Resistor

Circuit Diagram -

Written Code:

| Void Setup()
| South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South of the setup() | South

Observation / Output:

The LED bulb was faded on and off with a delay of 100ms.
